ALUMINIUM COLD-ROLLING COILS AND SHEETS

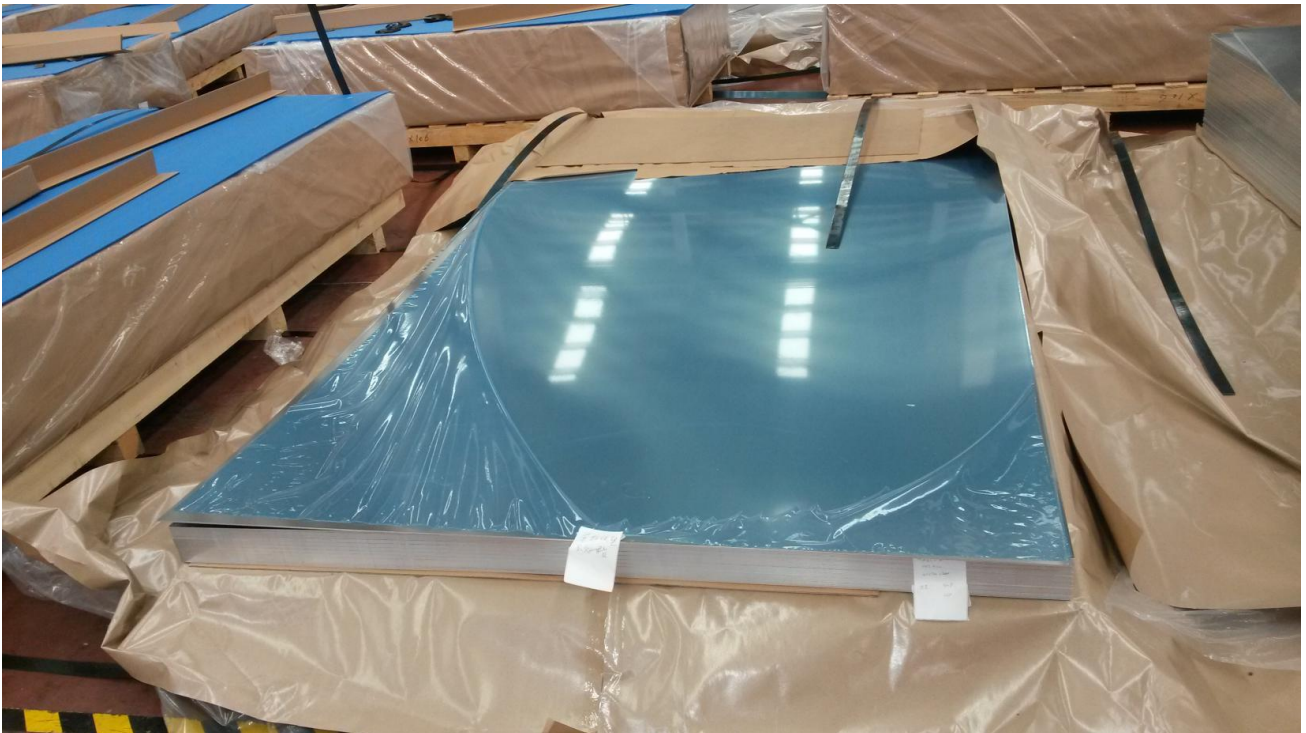

Our Aluminium cold rolling sheets and coils are rerolled in the cold rolling lines from mother coils casted from aluminium super casting lines and from DC mother coils.

Aluminium cold rolling coils are rolled into different thickness from 0.15 up to max.5mm as per client's requirements.

Our cold rolling specification is generally as follows:

Aluminium cold -rolled sheets

Typical Alloy	Alloy	Temper	Thickness (mm)	Width(mm)	Length(mm)
AA1XXX	AA1050/1100/1060	H12/22/31	0.20-3.5	1000-1780	Max.4000mm
AA3XXX	AA3003/3005/3004/	H14/24/34			
AA8XXX	3104/3102	H16/26/36			
AA5XXX	AA5052/5754/5083/5182	H18/28/38/o
